REFERENCE USE ONLY

**Up to 1·0000 gram without
opening the case!**

A great advance in rapid, accurate precision weighing. Aperiodic Balance No. 62 weighs up to 1 gram to the nearest 1/10 mg. (1/100 mg. by estimation) rapidly, accurately, and without opening the balance case. It is simple, sturdy and sweet-acting—a typical Oertling British balance. It is fitted with our Prismatic-Reflecting device for direct scale readings of weights from 0·0001 gram to 0·0099 gram and our “multi-weight” device for weights from 0·01 gram to 0·99 gram. Capacity 100 grams: New fully descriptive folder now ready. May we send you a copy?

*Applications for further particulars and School Calendar are invited by
THE DEAN*

London Hospital Medical College and Dental School (University of London)

THE LONDON HOSPITAL serves the East End of London, and with eight hundred and ninety-one beds in normal times is the largest voluntary Hospital in England.

ORGANISATION OF THE MEDICAL SCHOOL IN WAR-TIME

During the recent air raids on London the Hospital has escaped serious damage. Systematic teaching has begun as usual with the Winter Session, but the number of beds has had to be reduced and only acutely ill people and air-raid casualties are now admitted. The organisation of the Emergency Hospital Services for London at the beginning of the War by the Ministry of Health, however, brought the London Hospital into close association with all the hospitals in Essex (Sector I) and all the hospitals in large parts of the counties of London, Middlesex and Hertfordshire (Sector II). In spite of the fact, therefore, that the number of beds at the London Hospital itself has been reduced, clinical facilities available in the Medical School have been enormously increased, and students are now distributed accordingly.

The Pre-Clinical School, with staff and equipment, has been temporarily transferred to Cambridge, where we have been granted the use of University buildings. The teaching of Chemistry, Physics and Biology for the First M.B. Examination is undertaken by Queen Mary College with which the London Hospital Medical College is associated. Queen Mary College is also temporarily transferred to Cambridge, and, therefore, the full pre-clinical curriculum is provided for students in Cambridge.

Entrance Scholarships and prizes of the total value of £950 are awarded annually. Research Funds to the value of £113,000 permit of assistance being given to students and graduates engaged in medical research.

The Medical College contains a modern Museum of Pathology and a Library provided with all the current medical periodicals in charge of a full-time librarian.

Further details may be obtained from the Dean, Dr A E CLARK-KENNEDY, M.D., F.R.C.P., Physician to the Hospital, who is always pleased to meet students wishing to see the Hospital and College, and to whom application for admission should be made.

MIDDLESEX HOSPITAL

MEDICAL SCHOOL

LONDON, W.1.

(University of London)

THE WINTER SESSION opens in October

THE MEDICAL SCHOOL and Hospital occupy a central position within a few minutes' walk of Oxford Circus. They are fully equipped for teaching the entire medical curriculum, both for University Degrees and the Conjoint courses.

The Hospital has been entirely rebuilt; the newly built quarters for the Resident Officers and Students afford greatly improved facilities. These, with other new buildings, including modern and well-equipped Laboratories, give to the Middlesex Hospital and its Medical School the most up-to-date facilities obtainable in Great Britain. In addition, there is open a unit devoted to Clinical Research, containing 6 self-contained wards and a large Clinical Lecture Theatre.

RESIDENT APPOINTMENTS

36 Resident Appointments are open annually to newly qualified students.

THIRTEEN REGISTRARS are also appointed annually.

SCHOLARSHIPS AND PRIZES of a value exceeding one thousand pounds are awarded each year

Large athletic ground, common rooms, a well-equipped restaurant and gymnasium are provided. A squash racquets court is available in the Hospital.

The Students' Amalgamated Clubs include Rugby and Association Football, Hockey, Cricket, Sailing, Fencing, Golf, Rowing, Swimming, etc.

The Athletic Ground is nearly 19 acres in extent.

*Further particulars and a prospectus may be obtained on application to

MEDICAL AND DENTAL SCHOOLS

(UNIVERSITY OF LONDON)

LONDON BRIDGE, S.E. 1

THE HOSPITAL, which is situated within two minutes of London Bridge Station, contains 621 beds available for Teaching.

BOTH THE MEDICAL AND DENTAL SCHOOL BUILDINGS have been entirely rebuilt in recent years. There is ample laboratory accommodation, and the Departments are equipped on the most modern lines

The Schools are fully equipped for teaching the entire Medical and Dental Curriculum for any Degree or Diploma, and exceptional opportunities are afforded for Clinical Work and Research.

FIRST M.B. (LONDON) AND PRE-MEDICAL EXAMINATIONS

Special attention is drawn to the facilities afforded for the study of Chemistry, Physics, and Biology. These Departments have been rebuilt and brought entirely up to date, and the instruction covers the whole of the curriculum required for these Examinations.

SCHOLARSHIPS

Scholarships in Arts and Science, varying in value from £60 to £200, are awarded annually in April.

THE COLLEGE

affords accommodation for about 35 students, whilst The Students' Club contains Reading, Dining, and Smoking Rooms, and the Pavy Gymnasium.

THE CLUBS' UNION

provides opportunities for every kind of sport, and includes membership of the Physical Society and the Students' Club.

The Sports Ground is situated within 15 minutes by rail from London Bridge. Extensive alterations and improvements have recently been carried out. There is a Fives Court and Swimming Bath within the precincts of the Hospital.

Prospectuses of the Medical and Dental Schools, together with full particulars of Scholarships, including past papers, will be sent post free on application to—

St. Mary's Hospital Medical School

(University of London)

TERMS BEGIN in JANUARY, APRIL, and OCTOBER

Exceptional Situation.

The situation of the Hospital and Medical School is unique, for while it is adjacent to a large poor district with a population of 500,000, it is also within a few minutes' walk of Kensington Gardens and an extensive residential district, in which students can live, and so avoid a daily wearisome journey to and from their work. Recent structural alterations include two new operating theatres and 75 additional beds.

Rebuilding of the Medical School.

Approximately £250,000 has been spent in rebuilding the Medical School and Laboratories. The New Buildings are now in use. Apart from the Laboratories, Class-rooms, and Theatres for all the subjects in the Curriculum, they include a Library, Restaurant, Students' Club, Billiard Room, full-sized Swimming Bath, Squash Rackets Court, Gymnasium, Boxing ring, and an underground Garage for fifty cars.

Clinical Facilities.

Since the beginning of the war the system of clinical teaching has necessarily been varied to meet existing conditions, and the work has been reorganised so as to include systematic instruction at several Hospitals in Sector by members of the Teaching Staff of St. Mary's attached to these Hospitals.

At the same time it has been found possible, up to the present, to maintain a number of beds at St. Mary's Hospital, and to carry on the work of the Out-Patient Department where the attendance has been large.

The Sector Hospitals to which students are attached are situated at Hammersmith, Hillingdon, Harefield, Ealing, and elsewhere. Maternity work is still carried on at Queen Charlotte's, Hammersmith, and Paddington Hospitals.

Institute of Pathology and Research.

The Institute of Pathology and Research, under the Directorship of Sir Almroth Wright, F.R.S., embraces seven departments, the heads of which are members of the Honorary Staff of the Hospital.

Research Studentships.

A considerable sum is devoted annually to research, and a part of this is applied to the upkeep of Research Scholarships, designed to enable students recently qualified to learn the technique of research work.

Entrance Scholarships.

All Entrance Scholarships are awarded annually in June as a result of nominations by Headmasters of Schools or Heads of Colleges.

The Geraldine Harmsworth Scholarship (£200), and other University Scholarships, are open to members of British Universities.

Appointments after Qualification.

Under normal conditions the Hospital offers upwards of 30 House appointments annually, many of them carrying salaries ranging from £100 to £750 per annum. Some of these posts are necessarily in abeyance at the present time, but a certain number are still offered regularly, and many vacancies for paid posts in the Sector Hospitals under the Emergency Medical Service are available at regular intervals for newly qualified men.

New Athletic Ground.

The Old Merchant Taylors' Ground at Teddington (13 acres) has been acquired. On sand, it remains dry throughout the winter.

Further details may be obtained from the Dean, Sir Charles Wilson, M.C., M.D., F.R.C.P., who is always ready to see students who are thinking of coming to St. Mary's.

PREFACE

IN November of 1940, the Executive Council decided that for a number of reasons—including the destruction of the Bureau's premises, the delays in obtaining information from Universities overseas and the shortage of paper—only a Supplement to the Universities Yearbook 1940 should be published. This Supplement contains only changes in the Administrative and the Teaching Staff, and, being supplied with an index will, it is hoped, be useful in tracing members of University staffs. No other information except the numbers of students in attendance is included.

The numbers in square brackets above the titles of Universities and other institutions refer to the page numbers in the 1940 Yearbook.

The deletion of a name or an appointment or a department has been indicated by the letter D (delete) in the margin. The letter A (add) means that a new appointment has been made, whether by way of substitution for another member of staff or by way of an addition to staff. (In some cases, particularly the Cambridge and the Oxford Colleges, these letters have had to be inserted before the College appointment.) The letter C (change) has been used to indicate promotions etc.

The Executive Council regret the delay in publication, largely due to the late receipt of much material and to the destruction of other returns by enemy action. In a number of cases the information required has had to be compiled from University Calendars.
